

# COVID-19 Car testing

**You need to have a test for coronavirus.**

**The virus is also called COVID-19.**

**You will be in your car and drive up to the clinic.**

**You will have to wait until it is your turn.**

**You may want to bring something that makes you feel good.**

**When it is your turn, you will drive up to the nurses.**

**You will stop your car and wind down the window.**

**The nurse will be wearing a gown, face mask, eye mask, and gloves.**

**The nurse will ask you some questions and want to see your medicare card.**

**You will drive to the next station.  
The nurse will show you the swab.**

**The nurse will put the swab inside your nose or at the back of your throat.**

**This might make your cough or sneeze. The nurse will give you a tissue.**

**You can go home now.  
You will find out your results in 2 - 3 days by phone call.**
